

The background of the advertisement is a dynamic, artistic illustration of water splashing and bubbling. The water is depicted in various shades of blue, from light turquoise to deep cerulean, with white highlights that suggest movement and light reflecting off the water's surface. Numerous bubbles of different sizes are scattered throughout the scene, adding to the sense of fluidity and freshness. The overall composition is fluid and organic, with the water elements flowing from the top right towards the bottom left.

**ZUARI<sup>®</sup>**  
DESIGNER BATH FITTINGS

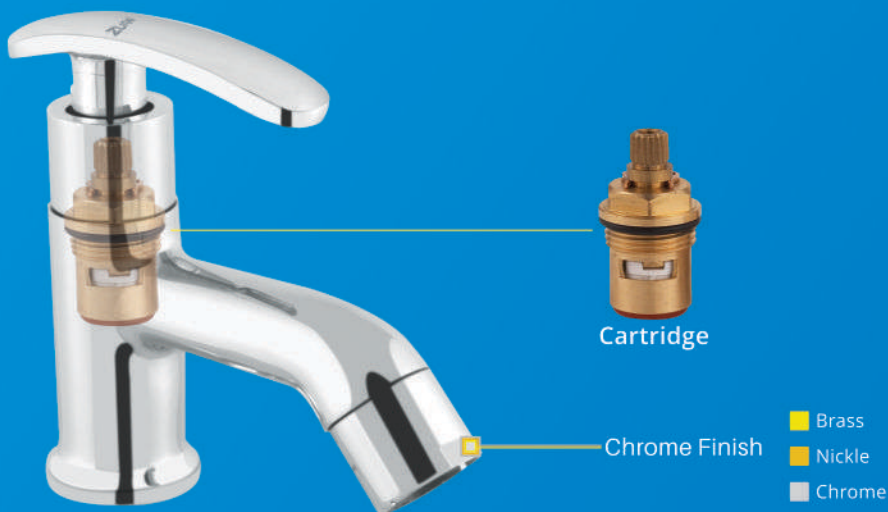

*Range to compliment  
your unique life style*

BATHROOM FITTING COLLECTION

## Company Profile

- **Zuari Bath Appliances** established as professional faucet manufacturer.
- Evolving with changing life style of people and understanding their need for unique structural design and decor, Zuari envisioned a whole market of modern bathroom fitting. **Eye catching elegant collection** in both economical and premium categories are being produced at best price with a commitment to provide faster After Sales services.
- **Zuari's dedication** to make perfect balance of **Quality, Technology and Design** which ensure years of reliable performance. For make it possible, our company have equipped with excellent technological equipment, advanced management techniques and rigorous detection method.
- We have tie up with various manufacturer who will manufacture the products part as per our design and superior quality.
- We are heading toward developing the "**ZUARI**" a **Seal of Trust** for each and every person across india.

Prince Cock Medium

**ZU-18**  
Prince Cock Heavy

## Consumer Guideline

---

Zuari provides most excellent with the use of contemporary technology. Zuari always believes in customer satisfaction. Company's skilled executive are constant interface with customers. Zuari also believes that consumers must get the best out of its product. Followings are the general instructions carefully followed by their consumers to get optimum results of the products.

- ☞ Use 25mm pipes rather than 20mm to ensure better water flow and to overcome reduction in dia of pipeline due to scaling inside the pipeline. Keep the minimum number of bends in the pipelines and make it travel straight and vertical as far as possible.
- ☞ All the supply must have vent pipes. These vent pipes help in removing air-locking in the water supply to give a flow of water from the fittings. Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the line.
- ☞ Clean the aerators provided in the items at regular intervals for a perfect flow of water from the fittings.
- ☞ Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. This prevents the flow of foreign particles, sand etc.. along with water supply into the fitting and thereby preventing the possible damage to the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular interval to avoid deposition of foreign particles.

## Warranty & Care Instructions

---

- ✓ The Product is warranted by Zuari to be free of defects in material and workmanship for a period of 7 years from the date of purchase.
- ✓ During this period and under normal use, if the product is found to be of faulty manufacture, the same will be repaired or replaced upon proof of purchase, at our option, without charge either for part.
- ✓ Zuari does not provide plumbing service to end-users.
- ✓ Clean the fittings regularly with normal soap or chalk powder to remove scaling/stains. Do not use strong detergents as this may cause damage to the chromium finish provided in all Zuari products.
- ✓ Do not use harsh cleaning agents containing abrasive and acids, instead use a soft sponge or wet cloth with soapy water/diluted vinegar to protect the color coated finish. To protect the fine finish of fittings from dirt stains and other damages, cover them with cloth/polypack after their installation till they come into actual use.
- ✓ If these care instructions are not followed, warranty claims may be denied.
- ✓ Any Warranty claim should accompany a proper invoice, clearly indicating the source and date of purchase.

## Caution

---

- ✓ The Warranty will be void and not valid, and Zuari will have no liability if
- ✓ Breaking of product during or after the installation and defect caused by improper handling, application of cleaning process.
- ✓ Modifications, repairs or service are made to the product, nature of the product/logo has been altered, defaced or removed, or the warranty card has been altered.
- ✓ Pictures shown are for illustration purpose only actual product may vary due to product enhancement.

## Terms & Conditions

---

- ✓ All prices are in Indian Rupees.
- ✓ All Government Tax are not included in MRP.
- ✓ Goods are dispatched by us on buyer's risk.
- ✓ Prices are subject to change without prior notice.
